Sir/Madam

I am against this plan for Mercury Marina. We moved to Hamble for my wife's health as she is a severe allergic asthmatic, especially to air pollution and building dust.

The additional building, traffic and lack of infrastructure to support holiday or residential is abhorrent to my family and I.

The fact that they state that the mound would be accessible to Mercury residents is also misleading since they have fenced the mound off. Making it off limits to residents.

Regards

Dr Paul Gregory
