

Netley Sculpture Consultation Survey

Please submit only one survey per person by 19 February 2026.

What is your postcode?

This will help us to know which comments are from local residents and it will not be used to trace your answers back to you individually.

Please read these statements and tick the boxes to confirm:

- I understand that this proposal **does not** use any funds raised from council tax.
- I understand that **this project uses Developer's Contributions for public art** which by legal agreement can only be spent on public art in the local area, otherwise unspent funds may need to be returned to the developers.
- I have read the information provided about the proposal.

Please answer the following questions using the scale 1-5:

1=strongly disagree / 2=disagree / 3=neutral / 4= agree / 5=strongly agree

The sculpture concept and references to the radar tower at the Hard and the Solent tidal graph are relevant to the local community.	
I have learnt something new about my local area by reading about the proposal.	
I would feel even more proud of where I live if Netley has a new sculpture by Nick Hornby.	
I support the proposed use of weather-resistant Corten steel as the main material for the sculpture.	
I support the proposed sculpture design.	

Which seating option would you prefer?

Please tick one box

- Option 1 - current benches stay where they are (no sculpture).
- Option 2 - current benches repositioned at the edge of the hexagon.
- Option 3 - new complementary benches, creating extra space for users of wheelchairs or other mobility aids (current benches moved nearby).
- Option 4 - benches positioned off the hexagon, optimising views from seating and maximising space around the sculpture.

Do you have any other comments you would like to share about the proposal?

Please write them on the back of this sheet.
