

THE BOROUGH OF EASTLEIGH (VIRTUAL PERMITS) ORDER 2019

STATEMENT OF REASONS

Eastleigh Borough Council is proposing to introduce the ability to issue “virtual” parking permits where permit facilities exist. “Virtual” permits are an electronic record of a parking ticket, permit or waiver issued by the Council to enable a vehicle to be parked in a permit parking bay or car park, or to exempt a vehicle from a waiting restriction.

The reason for introducing virtual permits is that this method is environmentally and financially beneficial for the authority, because costly paper permits no longer need to be printed and posted to customers. Customers will benefit by the permit being “live” as soon as it has been issued.
