

# Mini beast hunt

Owned and managed by

Explore nature on your doorstep  
to discover what lives where

	On plants	In the soil	Under a log or stone	In the air	In a tree
<b>Snail</b> 					
<b>Woodlouse</b> 					
<b>Beetle</b> 					
<b>Fly</b> 					
<b>Spider</b> 					
<b>Centipede</b> 					
<b>Ant</b> 					
<b>Butterfly</b> 					
<b>Worm</b> 					
<b>Bee</b> 					

Make a tally in the boxes of how many  
of each minibeast you see in each place.

Where did you find the most minibeasts?

Why do you think that is?
